Barli Bram:

We have reached a decision regarding your submission to International Journal of Language Education, "Indonesian Tertiary Education Students' Academic Writing Setbacks and Solutions".

Our decision is that your paper requires revision:

- a. there is a need of locating the research gap in the introduction or in the literature review
- b. there is a missing section of data analysis
- c. Findings: most of the graphs are not clear. it should be readable. It is also important to describe the meaning of the figure in the graphs, NOT repeating the description of the figure. Or What does the data mean?
- d. It needs more elaboration on the discussion especially the connection between previous studies and your present research. Also, describe the implication of your research for current ELT.

Submit your manuscript by 28 June 2022.
