Dear Stevanus Stevanus Trionanda:

After a careful review of your submission, "Designing Learning Trajectory on The Topic of Simplifying Fractions Using Realistic Mathematics Education with Flipped Classroom Strategy" will be considered for recommendation to be published at Atlantis Press (part of Springer Nature) if the following requirement are satisfied.

Your revised paper successfully implemented and passed similarity index (Turnitin) at maximum 20%. We have checked the similarity index of your submitted manuscript showing that it is already under 20%.

To revise, please concern to improve not only your paper based on the content review suggested by reviewers, but also the structure of English used within your manuscript.

Please kindly note that all proceedings articles on the Atlantis Press platform are "gold" open access and therefore freely available in perpetuity from the moment of publication with a Creative Commons (CC) end-user license attached. Under this model we will charge the author for the cost of publishing as much as IDR 1,750,000 (Rp1.750.000,00) for each paper. Please kindly confirm that you agree with this by sending your payment for publication to our Bank account as follows.

Bank BTN 00377-01-58-001258-4 a.n. Dra. Harti, M.Si.

After sending your payment, please scan your payment proof and upload it into the form below as your payment confirmation.

<http://unesa.me/seadrsteachpayment>.

There are some attached files, namely, 1) Manuscript template, 2) Keypoints of manuscript template, 3) How to Submit Revised Manuscript_SEA-DR & STEACH 2021

We are looking forward to having your revised paper and payment proof no later than December 1, 2021. Thank you for your participation in this event.

Regards,
Chair of Conference Organizer,

Reviewer A:

The title reflects the content and purpose of the research:
Clear

The introductory statement is in line with the research title.:

Clear

The purpose is stated to point out the urgency of the research:

Clear

The methodological approach is relevant to answer the research question:

Clear

The findings provide explanation of what have been discovered:

Clear

The content advances knowledge in the discipline:

Clear

Detailed Comments:

Detailed comments are inserted in the attached file

Reviewer B:

An article is clear and very prospective to publish. However, it needs to add the discussion which is comparing or highlighting others researchs.
