Dear Mrs Setiawati,

With reference to your manuscript apjtb\_413\_22 entitled Anticancer Drug Screening from Natural Products: In Vitro Cytotoxicity Assays, Techniques, and Challenges: A Review Article, please review the comments of the referees from our site <https://review.jow.medknow.com/apjtb>. The manuscript would be reconsidered after requisite modifications as per the comments and instructions provided by the journal.

If you wish to continue with the publication process, kindly make the changes according to the comments and upload the revised manuscript along with clarifications for all the comments clearly indicating the areas where the changes have been made.

Do check the FAQ regarding replying to the comments and uploading a file. The template of point-by-point comments files for the reviewers, is available in your dashboard under the 'Downloads' menu option.

The journal allows two weeks for the revision of the manuscript. If we do not hear from you within this period, we will consider it as your decision to withdraw your article from publication. Please also note that the submission of the revised article does not guarantee its final acceptance by the journal.

We thank you for submitting your valuable research work to Asian Pacific Journal of Tropical Biomedicine.

With warm personal regards,

Editorial Team

Dear Editorial Team,

We were trying to contact the editors last week to ask the extension of the request for the manuscript entitled "Anticancer Drug Screening from Natural Products: A Review Article of *In Vitro* Cytotoxicity Assays, Techniques, and Challenge" (Research Article, No. apjtb\_413\_22) to *Asian Pacific Journal of Tropical Biomedicine*. We were delighted to see that all the referees expressed an interest in the work.

As the comment is about the grammatical errors, we have taken it seriously. Therefore, we are asking for a professional proofreader, which takes some time to get the result. Thus, we would like to ask extension revision submission for a week. I hope you will consider it.

Thank you. I am looking forward to hearing from you.

Sincerely,

Agustina

Dear author,

Please remove the background color (yellow, purple, pink and blue) of figure 1-3 as there is no need to add it. For all figures, please provide better quality picture, because the supplied source images have very low resolution (not enough pixels for the print size) and the visual quality is not sufficient. Please provide us with images that have a minimum resolution of 1000 dpi and with a proper print size (typically we need 900 pixels wide for an image that fits a single column).

Please reply us within today. Thank you.

To: Agustina Setiawati <nina@usd.ac.id>

Dear Dr. Setiawati

We are pleased to inform that your article entitled "**Anticancer drug screening of natural products: *In vitro* cytotoxicity assays, techniques, and challenges**" has been published in "**Asian Pacific Journal of Tropical Biomedicine**". With this mail we are sending you the final PDF of the article for your personal use.

The internet today provides more opportunities than before to improve the visibility of your research work. There have been some studies to show direct correlation of article downloads to citations received. The journal's website and its bibliographic linking does help you to get readers, however, additional linking by you would help you to get even higher citations and research impact. You can use few (or all) of the online tools for this purpose.

1. If your institution has an open archive repository, you can put the PDF of your article in the archive with a link to the article on the journal's website <https://www.apjtb.org/text.asp?2022/12/7/279/350176>. Check <http://www.eprints.org/openaccess/self-faq/#self-archiving> to learn more about archiving.
2. Deposit the article in a subject based OAI-PMH compliant repository. You can find subject wise list of repositories from <http://www.opendoar.org/find.php> and <http://opcit.eprints.org/explorearchives.shtml#disciplinary>.
3. Link your paper from as many websites as possible using citation and social book marking tools such as GetCited, CiteULike, Connotea, Zotero, etc. The URLs for registering with few of these sites are  
<http://www.getcited.org/add/>  
<http://www.citeulike.org/register>  
<http://www.connotea.org/register>  
<http://www.zotero.org/>  
[http://www.stumbleupon.com/sign\\_up.php?pre2=hp\\_join](http://www.stumbleupon.com/sign_up.php?pre2=hp_join)
4. Link the article from an appropriate topic in the Wikipedia e.g.  
[http://en.wikipedia.org/wiki/Acanthamoeba\\_keratitis#References](http://en.wikipedia.org/wiki/Acanthamoeba_keratitis#References) [Ref. 5] or [http://en.wikipedia.org/wiki/Hallermann-Streiff\\_syndrome#References](http://en.wikipedia.org/wiki/Hallermann-Streiff_syndrome#References) [Ref 4]
5. As an author you can also deposit your paper with the NLM's PubMedCentral, if you have received an NIH grant. Use the myNCBI link on <http://www.nihms.nih.gov/db/sub.cgi> to submit your paper.
6. Link the paper from your personal / institution web pages. Please use this <https://www.apjtb.org/text.asp?2022/12/7/279/350176> for the linking.

Thank you for your contribution to our journal.

With personal regards
