Dear Dr. Agustina Setiawati

Please revise review comment on your manuscript bellow:

1. Abstract to short add  $\pm$  200 word
2. The name of journal for several references are not available.
3. the characteristic of MPE, since this was bought PT Borobudur must be describe.
4. Please, provide the variation (SD or SE) of the result (fig.1)
5. what is the % of DMSO in this experiment?
6. the statement of "MPE" was good candidate to be chemopreventive agent since its IC50 was lower than 100gr/mL " need to be elaborated! the justification on good chemopreventive based the IC50 value is not relevance.
7. it will be much better if the x reference (&#955; or y-mangostem) were determined.

sincerely  
editor,
