Performance Comparison of Inertia Weight and Acceleration Coefficients of BPSO in the Context of High-Utility Itemset Mining
Evolutionary Intelligence

Dear Mrs. Gunawan,

I am pleased to tell you that your work has now been accepted for publication in Evolutionary Intelligence.

Thank you for submitting your work to this journal.

With kind regards

Vincenzo Loia
Editor-in-Chief
Evolutionary Intelligence

Reviewer #1: accept

Reviewer #3: The authors have addressed in detail the reviewers' comments and the quality of presentation, as well as the scientific depth of the paper have been substantially improved. This reviewer has no further concerns regarding the publication of this paper.

Reviewer #4: the authors have addressed my previous comments

Please note that this journal is a Transformative Journal (TJ). Authors may publish their research with us through the traditional subscription access route or make their paper immediately open access through payment of an article-processing charge (APC). Authors will not be required to make a final decision about access to their article until it has been accepted.

Authors may need to take specific actions to achieve compliance with funder and institutional

open access mandates. If your research is supported by a funder that requires immediate open access (e.g. according to Plan S principles) then you should select the gold OA route, and we will direct you to the compliant route where possible. For authors selecting the subscription publication route our standard licensing terms will need to be accepted, including our self-archiving policies. Those standard licensing terms will supersede any other terms that the author or any third party may assert apply to any version of the manuscript.
