Rini Dwiastuti:

Thank you for submitting the manuscript, "OPTIMIZATION OF NANOSILVER SYNTHESIS PROCESS WITH BIOREDUCTOR LEAF EXTRACT BINAHONG (*Anredera cordifolia* (Ten.) Steenis)" to Jurnal Farmasi Sains dan Komunitas (Journal of Pharmaceutical Sciences and Community). With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL:

Rini Dwiastuti:

We have reached a decision regarding your submission to Jurnal Farmasi Sains dan Komunitas (Journal of Pharmaceutical Sciences and Community), "OPTIMIZATION OF NANOSILVER SYNTHESIS PROCESS WITH BIOREDUCTOR LEAF EXTRACT BINAHONG (*Anredera cordifolia* (Ten.) Steenis)".

Our decision is: Revisions Required

Reviewer A:

Please read comment in the text

Reviewer B:

1. The meaning of the sentences is confounding (in the Abstract). Please rearrange the sentences

"Found 3 combinations and the optimum temperature and duration of sonication using a 2x2. factorial design."

2. The authors is expected to mention the example of using nanosilver in pharmaceutical preparation.

3. Please check again in the methodology on determination of the transmittance value. (100L?)

4. Why don't choose one from three treatment as an optimal condition? As the results showed that treatment Fa and Fab had same sonication temperature but different duration. Fa more fast than Fab in sonication. Please give clarification of this case.
