Dear

1. Omolayo Awolola
2. Sherly Meilianti

Thank you for emailing me the galley proof of our paper entitled of **Solvent Influence on Curcumin Dissolution from Solid Dispersions Prepared by Using Hydroxy Propyl Methylcellulose - Polyvinylpyrrolidone K30.**

After checking all, I found some critical lay out mistakes which could lead to miss understanding for the reader. Herby, we attach the final version of our paper in word so you may get appropriate lay out and format regarding the figure placement. We found a repetition of the placement of the same figure and the incorrect placement of figure description. Attached is the file of 1) our correction on galley proof and 2) final version of our manuscript which send to the committee (word file).

Thank you

Kind regards
Dewi Setyaningsih

Dear Setyaningsih,

The final version of the galley was uploaded on the PEJ website, however, I will also attach it to this mail. Find attached the pdf galley for review. Kindly let me know if you got it. Best regards,

Dear Omolayo Awolola,

Thank you for emailing me the processing step of the publication. I would like have a look at the final version, however I do not know holayw to reach the final version of our paper.

Could you please send us the final lay out of the paper?

Thank you in advance

Kind regards,

Dear Dewi Setyaningsih,
We would like to invite you to do a final review of your manuscript: "IAI SPECIAL EDITION: The Influence of Dispersing Solvent on Curcumin Dissolution from Solid Dispersions Prepared Using Hydroxy Propyl Methylcellulose - Polyvinylpyrrolidone K30," before we publish it.
May you have a final look and let us know if there are any changes needed by **next week?**
Please note that if we do not receive any feedback by that time, we will consider this as approval for the publication of your article.
The final galley can be seen in the "copy-edited" section.
Thank you and we look forward to hearing from you.
Best,
PEJ Team.
